The attempt to repeal the statute which has led to the transfer of Caleb Powers from the State to the Federal court was defeated by a strict party vote when the State Senate recommended Senator Burnam's bill to that effect. The section for which an appeal was sought was that part of the criminal code which allows no review by the higher courts of the action of a circuit court on a motion to discharge the panel of jurors. It was because of this section that United States Judge Cochran transferred from this State to the Federal Court the case of Caleb Powers, former Secretary of State, who was thrice convicted of complicity in the murder of Gov. Goebel.

In the shade of the old apple tree, I've waited so long, love, for thee, that the voice once I heard, grows faint with each word, till it's barely a whisper to me. There is no more buzz left in the bee, the blossoms are withered, ah, me!—and the tree that once grew where I waited for you, has changed to an old chestnut tree. In the shade of the old apple tree, where you hear the blamed buzz of the bee, with a big carving knife that I swiped from my wife, I am waiting and watching—by gee! Of daggers I have two or three, an ax and a cutlass, you see; and I'll stick all these things in the next guy who sings, "In the Shade of the Old Apple Tree."

E. C. WALTON.

THERE have been many contests waged before the present Legislature for seats in that body. The majority, if not all of them, have been decided. It is said that some of the contests were decided according to partisan views and some of them according to law. Not knowing the facts, we have no opinion; and are, therefore, content to let the matter rest on the presumption that all officials endeavor to perform their duties honestly. The unusual number of these contests brings sharply into view a practice of long observance, both in the federal and State Legislatures which might be inquired into—the practice of allowing both the contestant and contestee counsel fees and expenses incurred in conducting the contest. What warrant of law is there for this? We say what warrant of LAW, not usage, not legislative enactment, but LAW! These fees and expenses are appropriated out of the public funds raised by taxation, the only way the State can get money. This money does not belong to the Legislature. It is owned by the people. The Legislature has no legal or moral right to spend a nickel of it except for the benefit of the people. If two men wage a law suit over an executive or judicial office, the loser must pay all the costs. The State, that is the people, does not pay a cent of the costs either in the way of court costs or lawyer's fee. A simpleton knows this much law. Upon what principle shall we apply a different rule of law when the contest is between two men over a legislative office? Is a member of the Legislature invested, by virtue of his office, with some peculiar dignity or excess of sanctity which does not pertain to the Governor of a State or a Judge of the appellate court? A man who contests the claim of another for a seat in the Legislature does so only because he thinks it to his own personal advantage to have that seat. The man who defends that contest is moved by a similar reason. An office is a property right. Each one contends for the right to have that property. If one loses that is his loss, not the public's. If the other gains that is his gain, not the public's. Why, then, should the public pay the expense? It is no answer to this question to say that these expenses are paid out of the contingent fund, and that the Legislature can appropriate what it pleases out of this fund. The latter part of this answer is false in law and in morals. The contingent fund like other funds, is put into the treasury for public purposes only. The power of the Legislature over it is not absolute. It is true that a State Legislature, speaking in general terms, has power to make any law which is not prohibited by the constitution. But there are modifications even of this general principle. A Legislature cannot appropriate private property for public use without compensation to the owner. A Legislature cannot appropriate private property for private use either with or without compensation. The Legislature cannot touch a single dollar of this contingent fund, whether it is regarded as the community property of the whole people or the property of each individual citizen and give it to some man to recoup him his loss in waging a private enterprise. Suppose under our system of laws two men were required to conduct their contest for the right to a seat in the Legislature before the court instead of before the Legislature itself, would any one dare say that the costs and expenses of both or either of the parties should be paid by the public? The very thought is absurd. Heretofore, the Auditor of Public Accounts has frequently resisted in the courts the payment of illegal legislative appropriations. Why does he not try his master hand on this little piece of—, shall we say charity or public robbery?

HOOTS and hisses greeted the mention of United States Senator Tillman, Gov. Vardaman, of Mississippi; Thomas Dixon, Jr., and F. Hopkinson Smith at a mass meeting held by the Constitution League in Cooper Union, New York. Called to protest against the disfranchisement of the Negro in the South, the meeting resolved itself into a general denunciation of conditions South of Mason and Dixon's line. No doubt the Northern screamers belong to that loathsome class favoring Negro equality. Most Southerners believe a creature of that ilk unfit to associate even with the African, to say nothing of a Southern gentleman.

If a man treated all ladies as he treats his wife, the chances are 10 to 1 that he would be very unpopular with the fair sex.—Casey County News. Is Editor Henry Thomas speaking from observation or does he "understand the situation" as well as he did the campaign in his county last fall when he was buried in the democratic landslide?

If the Rev. E. L. Powell contemplates mixing up in another Louisville campaign, he should remember that the burglars will get him every 30 days if he doesn't watch out.—Harrodsburg Democrat.

The will of Ambrose Bottom was upheld in the circuit court at Danville. He died at the age of 93 years, leaving his estate of \$50,000 to the children of one brother, W. A. Bottom, of Lawrenceburg. Another nephew contested.

Rural Route No. 3 by the way of Coffey's School House, Highland and Neals Creek church stands discontinued on account of small patronage. THE many friends of Mr. A. Logan Denny learn with regret of his trouble with the officials of Ascot Park, Los Angeles, Cal. One of his horses, Duff, won two races there last week and for some reason the judges demanded that Mr. Denny give an explanation in regard to the horse. The entire affair is doubtless spite work on the part of some enemy to the Lincoln county gentleman, as no one who knows him will believe for a moment that he is guilty of wrong doing.

MILLER PARDONED.—The good news comes from Washington that the President has pardoned Midshipman John Paul Miller, convicted by an Annapolis court-martial of hazing. The charge was purely technical as Miller had only made some fourth-classmen do a little drilling when they came into his room "doing the automobile act" and overturning some furniture. From a reliable source it has been learned that the authorities at Annapolis have all along had knowledge that hazing was being indulged in at the academy but had made no effort to stop it until the death of Midshipman Branch, of New York, who died as the result of a fight with Midshipman Merriwether, of Louisiana. It seems that upper classmen have it within their power to make life a burden for those under them, and Branch, who had a year's advantage of Merriwether, pushed his power beyond the limit and the fight followed. This and other things started a wholesale investigation and Miller was one of a number adjudged guilty, but on account of the technicalities in his case President Roosevelt granted clemency. It is a source of gratification to Miller's many friends as he has for four years stood high in his studies and has the reputation of being a fine officer. At any period of his career at Annapolis, his dismissal would have been hard on him, but especially would it have been had it come at this time, since he will graduate this month with honors. Miller is a son of Hon. John W. Miller, of Lancaster, and we congratulate both father and son on the happy termination of affairs.

Common Colds are the Cause of Many Serious Diseases.

Physicians who have gained a national reputation as analysts of the cause of various diseases, claim that if catching cold could be avoided a long list of dangerous ailments would never be heard of. Every one knows that pneumonia and consumption originate from a cold, and chronic catarrh, bronchitis, and all throat and lung trouble are aggravated and rendered more serious by each fresh attack. Do not risk your life or take chances when you have a cold. Chamberlain's Cough Remedy will cure it before these diseases develop. This remedy contains no opium, morphine or other harmful drug and has thirty years of reputation back of it, gained by its cures under every condition. For sale by Dr. W. N. Craig, the popular druggist at Stanford, Ky.

Andrew Carnegie has offered to give Swathmore College \$50,000 for a new library building if the college shall raise a similar sum to maintain the library.

THE Senate Pension Committee has favorably reported a bill pensioning Captain Philip B. Thompson of Harrodsburg at thirty dollars per month. Capt. Thompson and Capt. Todd are the only Kentucky Survivors of the Mexican war. A pension could not be more worthily bestowed than on these two veterans. Capt. Thompson is now about 85 years of age. In the prime of his life no lawyer of his district stood higher in his profession and none enjoyed a more lucrative practice. As a soldier he was distinguished, both in the Mexican and Civil wars for great personal bravery and skill in handling his men on the field of battle. At Shiloh he won the approval of Gen. Albert Sidney Johnson for gallant and meritorious conduct. His time is necessarily short, but when he dies Mercer county will have lost a citizen who has made a deeper impress upon that community than any men born within its limits—and Mercer county is rich in its own historic characters.

The Senate Committee appointed to investigate the conduct of the Confederate Home at Pewee Valley will visit the home and begin its investigation.

THE LIVER QUARANTINE

"TAKING HIS MEALS OUT."

Hurried eating has ruined many a man's stomach. The digestion-destroying process is gradual, often unnoticed at first. But it is only a short time until the liver balks, the digestive organs give way, and almost countless ills assail the man who endeavors to economize time at the expense of his health.

A torpid liver causes a quarantine of the entire system. It locks in the diseased germs and body poisons and affords them full play, inviting some serious illness. In families where August Flower is used, a sluggish liver and constipation are unknown, so are all stomach ailments, as well as indigestion, dyspepsia, heartburn, headaches and kidney and bladder affections. No well-regulated family should be without this standard remedy.

A Woman's Martyrdom

Is too often her own fault, simply because she won't take sufficient trouble to try a medicine that so many thousands of women enthusiastically recommend, viz: Dr. Caldwell's (laxative) Syrup Pepsin. This bland, soothing, curative medicine, regulates disordered functions of stomach, liver, bowels, etc., and soon restores sick women to perfect health. Try it. Sold by G. L. Penny, Stanford, and C. W. Adams, Hustonville, at 50c and \$1. Money back if it fails.

Eve was the only woman who had positive proof that she was the only woman her husband ever loved.

A Habit to Be Encouraged.

The mother who has acquired the habit of keeping on hand a bottle of Chamberlain's Cough Remedy, saves herself a great amount of uneasiness and anxiety. Coughs, colds and croup to which children are susceptible are quickly cured by its use. It counteracts any tendency of a cold to result in pneumonia, and if given as soon as the first systems of croup appear, it will prevent the attack. This remedy contains nothing injurious and mothers give it to little ones with a feeling of perfect security. Sold by Dr. W. N. Craig, the popular druggist at Stanford, Ky.

It's easier to teach a baby to talk than it is to teach a woman not to.

Now and Then.

Some thorough and careful physician invents, in his practice, some special medicine, that proves so universally successful whenever prescribed, that he proceeds to place it before the public to be reached by the newspapers. This is the history of Dr. Caldwell's (laxative) Syrup Pepsin. For years, prescribed by Dr. W. B. Caldwell for constipation, and all disorders of liver, stomach and bowels, it was at last manufactured on a large scale, and is now the most successful medicine in the world for these diseases. A pure, scientific tonic, laxative, syrup; pleasant to take and perfect in results. Try it. Sold by G. L. Penny, Stanford, and C. W. Adams, Hustonville, at 50c and \$1. Money back if it fails.

Some tales never lose in the telling, and the tale of good that Dr. Caldwell's (laxative) Syrup Pepsin will, and does do, to all poor, dyspeptic, bilious sufferers, is one of them. It positively relieves and cures all forms of indigestion, starts up the languid liver, regulates the constipated bowels, and restores the entire system to a perfect condition of health. Try it.
